

Medical Billing and Coding Services

Since 1980, RMK has provided medical coding verification and billing services, Medicare and Medicaid processing, physician billing and collection systems, and revenue management processes. As an example, our coding verification process allows for a minimal amount of rejected claims. In fact, your organization will benefit from our industry best average which is less than 1% rejected claims. Our services are user-friendly, web based and accessible to you 24/7.
